

"Asphalt Days", **March 12–13, 2025**, in **84453 Mühldorf am Inn (near Munich), Germany**.

#### Tell Bau GmbH

#### Asphalt construction on extremely sloping surfaces

*Coast protection, pavement of approximately 30.000 tons of asphalt*

Hanno Albers, Civil engineer in asphalt and road construction, <https://tellbau.de/>

#### AD SREMPUT RUMA

#### Reconstruction of Airport Nikola Tesla – Belgrade, Serbia

*270.000 tons of asphalt-special features in ongoing flight operation*

Marko Karovic, Master civil engineer, <https://www.sremput.co.rs/>

#### EAPA - European Asphalt Pavement Association

#### Innovation in the Asphalt industry, decarbonization and green deal

*Asphalt plant – plant to paver – smart paving technologies – compaction control technologies – temperature reducing asphalt/warm mix asphalt*

Dr. Breixo Gómez Meijide, Technical Director, <https://eapa.org/>

#### FLIEGL BAU-&KOMMUNALTECHNIK

#### How to reduce road life-cycle costs and implement Sustainable Development Goals

*Process reliability in asphalt construction through innovative transport technologies*

Martin Fliegl, Head of the Department, <https://fliegl-baukom.de/>

#### Deutscher Asphaltverband (DAV)

#### Sustainability in road construction – MAK-limit-maximal aerosol concentration sustainability

*Current situation and regulations in German road construction industry*

Andreas Stahl, M.Sc., Consultant for asphalt construction and technology, <https://www.asphalt.de/>

#### Hart Consult International GmbH

#### Construction of Formula 1 racetracks and proving grounds

*Possible lessons for sustainable road construction from special pavement around the world*

Mario Peiker, managing partner, <https://www.consultanthart.com/>

#### Technical University of Braunschweig

#### Dynamic shear rheometer testing of Asphalt binder, Bitumen typing quick procedure

Dr.-Ing. Johannes Büchner, Head of Bitumen Competence Center in the Innovation Society of TU

Braunschweig, <https://www.tu-braunschweig.de/en/>

#### Infratest Prüftechnik GmbH

#### Digitalization in Asphalt Road Construction. Special features, Possibilities, Limitations

**and topic about measurement and proof equipment** *Asphalt laboratory stay of the art*

Dipl.-Ing. Ersun Görener, Head of Sales Department, <https://infratest.net/>

#### AD SREMPUT RUMA

#### Execution of various civil projects in Serbia

Marko Karovic, Master civil engineer, <https://www.sremput.co.rs/>

#### Newton Trailers

#### Health and safety in road construction and regulations in Great Britain

Andrew Smith, CEO, <https://www.newtontrailers.com/>

#### WERWIE

#### Road construction machinery equipment: Road paver equipped with ThermoScan

Thorsten Huber, Director Rental Services, <https://www.werwie.com/>

#### FLIEGL HISTORY AND PRODUCTS RANGE PRESENTATION

*Company history; Baukom Product range: Duplex Mixers, BTS concrete stations, Push off technology, Banquet finisher, Stone Master, BlackBull; .....*

#### FACTORY TOUR

#### LIVE DEMONSTRATIONS

#### Real life demonstration of modern asphalt pavement technologies

*ThermoScan, Push-off technology, attachment "Wiesel", shoulder paver, .....*

*Agenda subject to change*
